

Women in STEM – Lecture & Exhibition

Center for Women's and Gender Studies

Annette Klein, German General Consul, will introduce the poster exhibition on “Women in STEM” globally with a talk on gender disparities in science, technology, engineering and mathematics, a field where women account for less than a third of researchers.

On loan from the German Consulate, the exhibition presents the portraits of 24 global pioneering women scientists and engineers whose life and work has played a central role in science, but has remained largely unknown. They serve as inspiration and reminder that much work needs to be done.

Annette Klein
German Consul
General, Miami

Lecture: Thursday, January 25, 2018
11am– 12:30pm
GC 243

Exhibition: tbd

The event is free and open to the public.

*Co-sponsor by the European and Eurasian Studies Program,
the Miami-Florida Jean Monnet Center of Excellence*
